Budget Ninja Presents...

Fairwell

on Android, IOS, and Web Platforms

Professional, Friendly, Be Fair.

Have a trustee old friend who forgot to pay you owed money? No need to keep on asking. We created an easy money payment tool just for you that allows you to send out friendly reminders while tracking down all your transactions, all-in-one.
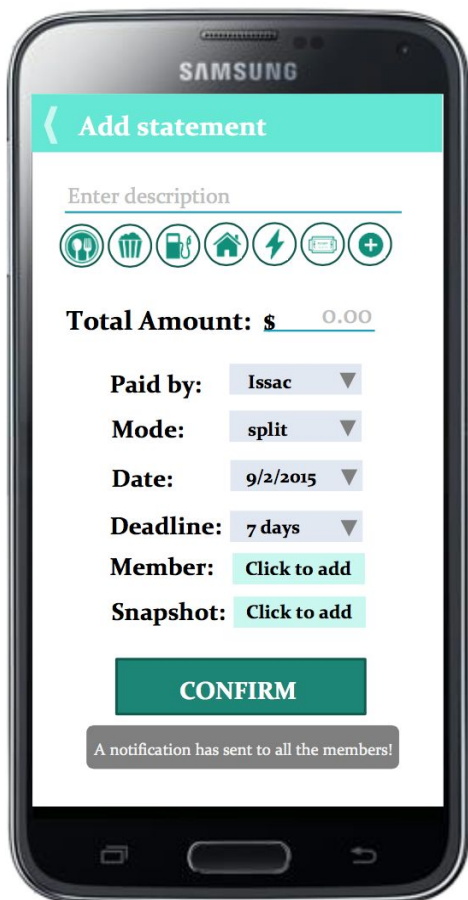

App Overview

We welcome you the opportunity to resolve debt amongst your friends with this intelligent mobile payment tool: Fairwell. The algorithm in the current development of this app is designed to calculate and keep track all money transactions in an organized manner.

Features

- Easy access to uploading user photo, name change, password, etc.

- Check your current balance and statement history. Track resolved/unresolved statements

- Simple to add statements: select who from your added pool of friends, enter description, $ amount owed, deadline to owe by and voila!

- Interactive well-designed icons to choose from for transaction description

- Other option features: choose amongst split/percent/individual paying modes, option to attach photo of receipt as proof of expense

- If a friend hasn't met deadline, friendly reminders/notifications are to be sent in timely fashion.

- Other fun features... to be later developed :).

Conclusion:

- Register an account through Facebook, Google+, or simply create an account with Fairwell.

- Email invitation for your friends to join this useful tracking tool technology

- Due to security purposes, all sort of transactions are done by users themselves. Paypal payment system might be implemented in the near future.

Why Fairwell?

- Easy to use

- Friendly design for all users to help keep track transactions

- Don't have to do the calculations yourselves: We do it all for you!
